

41 X 21 Slotted Unistrut Channel

**Features:**

- Pre-galvanized
- Dia. Hole: 9/16" × 1-1/8"

**Standard Material:**

- Steel, Q195

Slotted Type:

| Dimensions      |         | Thickness |     | CAT.#      | Standard Length |
|-----------------|---------|-----------|-----|------------|-----------------|
| in              | mm      | Gauge     | mm  |            |                 |
| 1-5/8" X 13/16" | 41 X 21 | 16        | 1.5 | B1630PG-SL | 3.0 m           |
| 1-5/8" X 13/16" | 41 X 21 | 14        | 2.0 | B1430PG-SL | 3.0 m           |
| 1-5/8" X 13/16" | 41 X 21 | 12        | 2.5 | B1230PG-SL | 3.0 m           |

Application:

Slotted strut channel is used to mount, brace, support, and connect lightweight structural loads in building construction. These include pipes, electrical and data wire, mechanical systems such as ventilation, air conditioning, and other mechanical systems. Strut channel is also used for other applications that require a strong framework, such as workbenches, shelving systems, equipment racks, etc. Specially made sockets are available to tighten nuts, bolts etc. inside the channel, normal sockets are unable to fit through the opening.
